Dec. 24 – January 5
Feb. 18 – Feb. 23
April 22 – April 27

CURRICULA DESCRIPTIONS

Ages 0 – 1 yr. With age-appropriate activities for newborns, infants and crawlers, this parent-child music and movement class will help you strengthen those early parent-child bonds, understand your baby's development, and heavily focus on child development and communication with your baby. You and your baby will enjoy instrument play, dance, exploration time, and together time—and you'll get expert advice and parenting resources based on the most recent research in baby development.

For 1 and 2 year olds. Embark on Kindermusik's fun new exploration of singing, swaying, laughing, and playing through *Sing & Play*, a just-right mix of early-childhood vocal play and language development, together time, and music and movement activities!

For 2 and 3 year olds

This music-filled class celebrates the unique joys of your growing child. Each week your child will love singing, dancing, and playing instruments with you and her new friends and you'll love helping her practice a wide variety of abilities such as gross and fine motor skills, turn-taking, social skills, and active listening.

Ages 3 – 4 yr. Each week in class we combine your preschooler’s natural love of music, storytelling, and imaginative play with age-appropriate activities that introduce early music concepts and foster independence, social and emotional skills, language growth, and self-control.

For 4 and 5 year olds — From the moment you became a parent, you wanted the best for your child. In class, we engage your child in music and movement activities that also promote language, social and emotional skills, early math and early literacy, physical coordination, creativity, and more. Plus, your child will learn basic music vocabulary and notation.

MUSIC FOR LITTLE MOZART PIANO CLASS – This class is for ages 5 -7 and the focus will be learning to play the piano. This is not a Kindermusik program, but is offered at The Piano Lab for a total of **30 weeks**.
